CHALLENGER ENERGY (ASX code: CEL, CELO) is focused on the fast-emerging, world-scale shale gas province in South Africa's Karoo Basin. The Karoo is strategic, and central to the South African Government's agenda, given the country's power crisis and need for economic growth, jobs and infrastructure development. Through its South African subsidiary, Bundu Gas and Oil Exploration Pty Ltd, Challenger was first to recognise this opportunity and to apply for exploration rights in the Karoo - and has since been followed by Shell and Falcon Oil and Gas, which has brought Chevron in as a joint venture partner.
